

# PRO-AT SLIM SEPURA

## HI-DEF ACOUSTIC AIRTUBE WITH SEPURA CONNECTOR

### A development of the classic acoustic airtube

It uses the transducer technology from the hearing aid products with a transducer with a better performance in the speech region so it is easier to hear.

This is a version of an earphone where the sound is generated in a transducer and then transmitted to the ear via an air tube.

It is discrete and comfortable to wear.

There are also other types of eartips that can be used depending on what the user prefers or have different characteristics like full ambient listening or blocking the ambient sounds.

### FEATURES & BENEFITS

- Upgraded transducer element (Hi-Def) developed from the hearing aid technology.
- Slightly louder and more clear speech quality compared to the standard airtube.
- Coiled airtube made of hypoallergenic silicone.
- Adjustable for different ear sizes (cut the airtube to suitable length)
- Adjustable for left or right side (twist and adjust the L-formed joint)
- The loudspeaker part has an integrated clip that typically be clipped to the collar.
- Normally delivered with 3 sizes of eartips, 1-,2- or 3-flange versions.
- Standard eartips blocks the ambient sound to make it easier to hear the incoming audio in noisy environments.
- Slim size connector with metal hook for secure and reliable use
- Connector with integrated rubber gasket as water protection for the connector pins.
- Listen only accessory – for transmission the terminal's internal microphone are used.

### SPECIFICATION

Impedance 41 ohm

Cable length 30cm

### SPARE PARTS

PRODUCT		ART.NO
ProEquip L-shape plastic joint for acoustic airtube		29278
ProEquip acoustic airtube for hi-Def solution		29302
ProEquip Airtip for Airtube		72242
ProEquip Airtip 2-layer for Airtube		72244
ProEquip Airtip 3-layer for Airtube		72246

### OPTIONAL PARTS

PRODUCT		
ProEquip EarFly Insert for acoustic airtube, right		60179
ProEquip EarFly Insert for acoustic airtube, left		60178
ProEquip Eartip noisereducing memory		60255
ProEquip Oper ear inserter, left		60278
ProEquip Oper ear inserter, right		60279
