

PRO-BT210/BT211

BLUETOOTH® ADAPTER FOR SEPURA RADIO

ATTACH YOUR FAVORITE EARBUDS AND GO WIRELESS TO YOUR RADIO!

ProEquip **PRO-BT210 / BT211** is compatible with all your favorite TWS Wireless Earbuds* like Apple Airpods™, Beats™ & AfterShokz™ to name a few. You can also connect Bluetooth® hearing aid and Aviation headset like Bose A20 & Lightspeed.

The Bluetooth® adapter has BLE (Bluetooth® Low Energy) technice and brings many benefits. BLE requires a limited quantity of energy to work properly and ensure a communication-based gateway on almost 4.0 standard ranges for better functioning.

In short, Air Pro Wireless + BLE = Better Performance.

You pair the dongle to your Wireless Earbuds for the ultimate personalized kit. Perfect for undercover operations! *Simply pair the Bluetooth® Remote PTT to activate your Wireless Earbuds with your finger remotely. Mount to a handlebar, weapon, or attach to your finger for easy covert access.

*Wireless Earbuds are not included.

FEATURES & BENEFITS

- Dual Connectivity: Pair Bluetooth® Wireless Earbuds, Bluetooth® Microphone or wired headset via a 2.5mm jack
- Use with your favorite TWS Wireless Earbuds (Apple Airpods, Beats, AfterShokz, ect.)
- ON/OFF Switch: Turn ON & OFF Bluetooth® devices. ("OFF" mode reverts radio to talk & listen)
- BLE (Bluetooth® Low Energy) offers extended batterylife and higher connectivity rate
- Pair the Bluetooth® remote PTT & activate your Wireless Earbuds with your finger remotely
- Perfect for undercover operations! Mount to a handlebar, weapon or attach to your finger to key up remotely.

- For the best function/sound quality, we recommend the following settings in the Sepura terminal.
- Basic Headset [33106] is changed to "High Treble"
- Headset Microphone Gain [7230] is set to 36dB
